Turbo usona

Mild, liquid detergent with new fresh perfume

Turbo oxysan*

Gentle disinfectant and bleaching agent for low temperature washing

The TURBO CLEAN & SAFE Duo.

TURBO CLEAN & SAFE - disinfection at only 30 °C

Hygiene management for outerwear in care homes and nursing homes is becoming an increasingly important issue. This is clearly outlined in the current guidelines of the Hohenstein Institute entitled "Textiles in Care Homes". Disinfection of fine/delicate outerwear at 30°C has not been an option, until now. Have you been searching a long time for a solution like that?

Try **TURBO CLEAN & SAFE!**

Chemothermal disinfection (in accordance with § 18.1 IfSG. ¹⁾)

Temperature	Turbo oxysan*	Turbo usona	Time	Liquor ratio
30 °C	3 ml/l	4 ml/l	20 min	1 : 5
40 °C	2.5 ml/l	4 ml/l	15 min	1 : 5

Applied for RKI A/B listing / VAH listed!

*** Use biocides safely. Always read the label and product information before use.**

¹ IfSG = German Infectious Diseases Prevention Law
